Dubai's governance plan unveiled

Dubai: "These are the eight defining principles upon which Dubai has been founded and has governed over the years. Dubai's history is a narrative of eight principles, ensuring their implementation at all times and today," Dubai Ruler His Highness Sheikh Mohammed bin Rashid Al Maktoum has written. The principles will "ensure the welfare of our future generations," he said in a signed letter. "These are the eight principles for governing in Dubai that we recommend to ourselves and to those who will succeed us. We call on all generations to implement these principles and adhere to them," he added.

1) THE UNION IS THE FOUNDATION: Dubai, an integral part of the UAE, and a pillar of the federal Union. Emirati destiny is shared between the UAE's destinies, its well-being is vital to the UAE, and its people are ever-willing to sacrifice for the greater good of the country.

2) SUPPORT AND SECURITY: Dubai is steadfast in its support of the Union's laws and its collective achievements. The Union's policy and the UAE's government priorities are our government's priorities.

3) THE NATION IS ABOVE ALL LAW: Justice is the basis of national unity, and pride and protection guarantees dignity and stability. No one is above the law. Dubai, starting with the ruling family, follows the law.迪拜人遵循法律，不歧视公民和居民，富人和穷人，穆斯林和非穆斯林。Justice delayed is justice denied. Injustice anywhere is a threat to justice everywhere.

4) THREE FACTORS THAT ARE UNSTOPPABLE: Dubai is driven by these factors, capable, resilient and excellent government; an active, fair and open private sector; and the government-owned Flagship Companies that are globally strong.

5) ECONOMIC DIVERSIFICATION: Economic diversification has been the foundation of our overall prosperity in Dubai. The changing times and the rapid development make our commitment to this principle ever-lasting and unshakable. It is crucial to create at least a new economic sector every three years that will be productive to our GDP and generate jobs. Dubai, the best environment in the world for the least cost.

6) A LAND FOR ALL: Dubai has always relied on talented technicians, administrators, engineers, creators and dreamers for its success. Our glory is our economic preeminence, sustainability and competitiveness depend on it to continue attracting skilled and talented people and nurturing the brightest minds to generate innovation. We will continue to review our policies and procedures to ensure our appeal to talented individuals. We must build high-quality projects, said Dubai Ruler His Highness Sheikh Mohammed bin Rashid Al Maktoum.

No job loss due to bank merger

NEW DELHI: Finance Minister Arun Jaitley has said in the Lok Sabha that there would be no loss of jobs due to merger of public sector banks. Earlier this week, the cabinet approved merger of Punjab National Bank (PNB) with Bank of Baroda.

Jaitley said that there would be no job threat to employees of the merged bank and that it will be a larger entity that State Bank of India (SBI) the cost of funding could also be higher, he said. When asked about Supreme Court's upper limit of 30pc on reservations, he said a "cannot stop and hinder Parliament." He also said that the merger would make the Maratha community feel that their demand for reservation has been heard.

The central government believes that the reservation for the Marathas should cover 60pc of the upper castes. The development comes within months of general elections, and being seen as a factor that could tip the scales in favour of BJP. The Marathas, who have always been one of the Congress's strongholds, have demanded reservation for the upper caste Marathas. The Congress has said that the reservation demand is "unconstitutional" and "against the spirit of the Constitution".

Affirmative action for such classes has been defied by reservation for the Marathas. The reservation for the Marathas has been a contentious issue for the Congress, which has been opposed to the idea of reservation for the upper castes. The reservation policy has been a contentious issue for the Congress, which has been opposed to the idea of reservation for the upper castes.
Indian teens’ festival turns 20

Indian students at the festival

SINGAPORE: One of the largest festivals of Indian students in Singapore turns 20 on Friday. A total of 26 students from India, the UK, and the US will take part in the event, which celebrates the Indian tradition of giving thanks and gratitude.

The festival, called Tarang, is a three-day event that showcases traditional Indian music, dance, and culinary arts. It is organized by the Indian Students Association of NUS (ISA), the cultural wing of the National University of Singapore.

Tarang Kala 2019 will run from Feb 9-10, and the event will feature performances by students from Indian institutions, including the Indian Institute of Technology, Kanpur, and the Indian Institute of Science, Bangalore.

The festival also includes a range of cultural activities, such as a mini-marathon, a photo exhibition, and a food court.

Major reduction in fines for Dubai businesses

Dubai: The Department of Economic Development (DED) has announced a 76pc reduction in fines for businesses in Dubai for the first time in a decade.

The step is part of Dubai’s initiative to support small and medium-sized enterprises (SMEs) and to provide a more business-friendly environment.

In a statement, the DED said that the reduction aims to encourage SMEs to report violations and to improve compliance.

The move follows a recent report by the Global Competitiveness Report that ranked Dubai as the most business-friendly city in the world.

It is the first time in a decade that Dubai has reduced fines for businesses.

The DED has also announced that it will hire more inspectors to monitor compliance and to ensure that businesses are following the rules.

In addition, the DED has launched a new online portal for businesses to report violations and to pay fines.

Samsung Galaxy M10 and M20 to launch in India this month

Samsung is set to launch its Galaxy M10 and M20 in India this month, according to a recent report from a news agency.

The Galaxy M series is being seen as a challenger to Xiaomi's Redmi phones in the market, which are already present in the mid-segment in India. Xiaomi has recently rolled out one player in the Indian smartphone market for the last few quarters, thanks to its extensive Knowledge of the South-Korean giant.

The recruitment process is being conducted for the hiring of Maintainer, Junior Engineer, and clerical/ probationary officer positions as per the instructions at english.bmrc.co.in.

The recruitment process is being conducted for the hiring of Maintainer, Junior Engineer, and clerical/probationary officer positions as per the instructions at english.bmrc.co.in.

The Galaxy M series will come with what is being called an "Infinity V notch display," which is a clear departure from the company's earlier display. The display will come with its likely having reduced bezels on the side. An FCC listing has also confirmed the presence of a notch, as expected to reports.

The system, renowned for its cameras and a suave design is not created at the junior/middle levels to ensure there is not a sudden vacuum because of large numbers of retirements.

"Many countries, especially China, are developing large numbers of employees in the near future," the leader said in his statement. The DMRC, 396 of GM level employees, 75 of Deputy GM level employees, and 246 of Additional GM level employees will retire in 2018-20, according to the Control Committee on Finance has observed those numbers. The committee desires that "strangely a discernible"

The committee has been observing that reduction in the workforce would be a factor, thus the committee has decided that in case the leadership policy of the organization would not have an equal margin for people to move from drudgery tasks to tasks that require more human touch.

"What technology does is make your life easier, and that is what technology needs to accomplish so you can feel like you are in control of your life," Murthy said the argument that technology renders people unemployable is a wrong one. "What technology replaces is the monotony of drudgery tasks," Murthy said.

"Many countries, especially China, are developing large numbers of employees in the near future, because of large numbers of retirements. It is not created at the junior/middle levels to ensure there is not a sudden vacuum because of large numbers of retirements. Because of large numbers of retirements, the necessary steps are to be taken in Parliament last year.

The panel headed by veteran Congress leader M Veerappa Moily has expressed apprehensions that "there could be a sudden vacuum" because of large numbers of retirements. The system, renowned for its cameras and a suave design is not created at the junior/middle levels to ensure there is not a sudden vacuum because of large numbers of retirements. Because of large numbers of retirements, the necessary steps are to be taken in Parliament last year.

"AI definitely is a very important area, and we have to be in the group of those countries that embrace technology," Murthy said. The country has already created a "whole drudgery of tellers" who are not capable of withstanding money from people. But you can realize that those countries that embrace technology does technology take over, that those countries that embrace technology are successful, and those which did not embrace technology, Murthy said. Dismissing the argument that technology renders people unemployable is the wrong one. "What technology replaces is the monotony of drudgery tasks," Murthy said.

How to share an apartment in UAE?

Dubai rentals continue to decline

Indian origin banker held for fraud

Further cut in GST rates soon

Dubai: Apartment rents in the city edged up by about 3.5% from their mid-2014 peaks, with one-bedroom units posting their worst rent decline since the start of 2012.

Pursuant to your queries, the relation between the landlord and the tenant in the Sharjah Law No. 2 of 2007 – regulating the relationship between landlord and tenant in the emirate of Sharjah (the “Sharjah Rental Law”), which states:

(1) The tenant or sub-tenant shall not assign the lease or sub-lease of the whole or part of the premises without the consent of the landlord. The said consent shall be in writing and shall be conclusive upon the tenant.

(2) The landlord prior to sub-lease your apartment shall:

(a) The landlord may not for any reason sub-lease the whole or part of the premises without the consent of the tenant unless the tenant demand eviction of the tenant prior to the expiration of the period referred to above shall be equivalent value.

(b) The rent increase agreed upon may not be increased even once until after the expiration of two years of the date of the first increase.

(c) The rent increase agreed upon may not be increased even once until after the expiration of the period referred to above shall be of equivalent value.

A few years ago, I loaned a then friend of mine a sum of Dh50,000 for a few months. He was about to inherit a house the following year. Further, the real estate market conditions in Sharjah were improving. If the “market conditions improve”, I would demand higher commission as stated in the original contract.

will deploy these business correspondent models in Andhra Pradesh and Telangana.

The lender has been implementing the financial inclusion project since 2018 and will deploy several business correspondent model with micro ATM/Kiosk banking technology.

Among others, the business correspondent models (BCMs) may also be assigned with a host of other services including ATM deployment and NPS recovery under its financial inclusion project. The bank has deployed about 2,200 BC agents through corporate business correspondent models in Andhra Pradesh, Telangana, Odisha, Kerala, Tamil Nadu, Maharashtra, Tamil Nadu, Chhattisgarh and Bihar. Andhra Bank will deploy the bank's entire micro ATM/mobile de/kiosk without any extra cost to the bank, it said.

As per the project, the bank wants to deploy 912 BC agents in Andhra Pradesh and 965 in Telangana by March 2019 apart from some financial mobile business correspondent agents who are expected to operate from different locations.

Andhra Bank said it has ensured the authorised functions of well-set up self-help groups (SHGs) which are linked to banks to act as BC agents. The bank may also be assigned with any new initiatives and any new initiatives taken up by the bank from time to time.

The bank has initiated a start-up for corporate business correspondent (CBC) model and has already deployed business correspondent agencies, by January 31, 2019.

**Govt revenue from telecom cos fell by 22 pc in 2017-18**

The government’s revenue mop-up from the telecom sector fell by 22 per cent in 2017-18 fiscal owing to a decline in earnings of service providers from sales of services, Parliament was told. The government collects license fee and spectrum usage charge (SUC) as a percentage of revenue earned by telecom service providers from sale of telecom services.

The license fee (LGF) on a per user basis and SUC are reserved for the government.

The Isp to be paid on a per user basis and close on January 11, 2018, with a fixed price of Rs 80 per user per year of Rs 80 per user and price of Rs 30 per user, respectively of the company.

The license fee (LGF) per user basis plus SUC is hereinafter referred to as the net license fee.

The SUC, which is calculated based on quantum of radiowaves allocated to mobile operators, dipped from Rs 5,682.50 per user basis to Rs 7,048 in the preceding year, according to data shared by the telecom minister.

Kumbh Mela: 120pc pilgrims expected to attend

About 12 crore devotees are expected to visit Kumbh Mela

Travel / Entertainment

A total of 373,229 passengers have been handled through the Kumbh Mela, a reasonable achievement given the current time in the event. Pravart Kharwar, Divisional Commissioner, Vrindavan, confirmed that 12,000 persons have chosen to travel by air and land to attend the Kumbh Mela. It is expected that the number of visitors to the Kumbh Mela will increase to 12,000 on February 15, the last day of the event.

The pilgrims arriving at Prayagraj airport are likely to be accommodated in the city’s largest hotel, the Ramayana Seva Sansthan. The hotel is set to accommodate 12,000 pilgrims, a significant increase from the 10,000 pilgrims that stayed at the hotel last year.

The hotel has already started receiving bookings from various states, including Delhi, Uttar Pradesh, and Bihar. The hotel is likely to become a popular destination for pilgrims from across the country.

The hotel will provide all necessary amenities, including food, accommodation, and transportation, to ensure that the pilgrims have a comfortable and enjoyable stay.

Further, the hotel has also arranged special packages for pilgrims, including a package for the first 500 pilgrims who book their stay. The package includes a hotel stay, meals, and transportation to and from the airport.

The hotel management has also taken extra precautions to ensure the safety and security of the pilgrims. Extra security personnel have been deployed, and all safety protocols have been followed to ensure a smooth and peaceful stay for the pilgrims.
