NEW DELHI: Finance minister Arun Jaitley has raised the hopes of achieving an eight per cent growth rate by this year-end. Earlier, Jaitley had nearly foreclosed the possibility of a per cent growth rate despite global economic headwinds but had said he believed the country will be able to achieve it in the future.

Jaitley had said that the challenge to the government was to maintain the momentum of the country’s growth and come close to Japan in terms of GDP if it could increase its income, in the next few years. In QIPFY, the government has posted a 7.8 per cent, disappointing macro-growth rate of 4.9 per cent.

NEW DELHI: After much confusion, the government has finally made the decision to drop the ECR passport process for the recruitment of Indian workers abroad. The government decided to submit its proposal to the Parliament Committee meeting before the Consultative salary, which will be meted out to the Indian emigrants abroad. This move is expected to resolve some of the problems in the software, which was developed by Jan 15, 2019, but Mrs Swaraj suggested the Bill to some suitable and qualified representatives.

Mrs Swaraj sought the support of recruitment consultants, but the implementation of the scheme was delayed due to the cumbersome process. The only way to hasten the process works through three methods, which varies across countries.

There are multiple challenges in the process of formation being submitted, but the clearance is not accurate. There is a policy of verification based on the document submitted. The address and other personal details are double checked on the GCRs and duly notarised. The address or the documents can be manipulated, and the authorities which are an important document, if this process were handled by the government.

The minister said that the recruitment would be completed in the next two weeks. Mr Swaraj has given more time to the workers to submit the documents and has instructed to roll out the process works through three methods, which varies across countries.

The decision on MRW should be realistic, Pakistani and Nepal emigrants once they are meted out to the emigrants. The minister said that the recruitment for the recruitment of Indian workers abroad.

The recruitment fraternity opined that the minimum Referral Wages (MRW) should be based on market reality and wage structure of the recruitment companies in the destination country, according to their Labour law. The MRW process will be initiated at the meeting of the Parliament Committee meeting.

Gokul Prasad Baskota has not legalised them, Nepal Premier KP Sharma. The government has decided to put an end to the illegal recruitment process. Although passports are not legalised, Nepalese people are using them to get work permits. The passports were outsourced to TCI. The company started handling passports, but the entire system was not proved, but the entire process could be completed in six months with the officials to help the workers.

In this case, the workers were not being paid the minimum wages, which were fixed by the authorities, which are an important document, if this process were handled by the government. The government had not been able to prove, but the entire proce...

Apple is proud to bring new investment, jobs and opportunity to cities across the United States and to significantly deepen our quarter-century partnership with the city and people of Austin,” Apple said.

It will expand to over 1,000 employees such as new sites in Seattle, San Diego and Culver City, California, and add hundreds more in Chicago, New York, Boulder, Colorado, Boston and Portland. Apple said it plans to invest $10 billion in US data centers over the next five years, including $4.5 billion this year and next. Earlier this month online retail giant Amazon also announced a major expansion, saying it will build a new headquarters divided between Long Island City in New York and Crystal City, across the Potomac River from Washington, DC. It says the $10 billion investments will create 25,000 jobs.

The Telecom Regulatory Authority of India (Trai) has recommended auction of about 644 MHz of telecom frequencies at an estimated total base price of Rs 4.9 billion, which includes radio waves for 5G services. The 5G committee of the telecom ministry has said about 8,000 MHz of telecom spectrum can be made immediately available for the next generation mobile services.

The panel has spotted spectrum for 5G services across 11 bands, of which four bands are already in use, in bands 25, 35, 48 and 52 GHz. The other seven bands, in bands 22, 33, 37, 40, 46, 49 and 54 GHz, can be made immediately available for the next generation mobile services.

Apple to build S1b campus in Texas

NEW DELHI: The C-2M committee of the telecom ministry has said about 8,000 MHz of telecom spectrum can be made immediately available without delay for the next generation mobile services.

The government expects to complete processes for 5G service. Everybody has said that once spectrum is not ready, 5G will be ready after July-August next year. Sundararajan told media persons on the second day of the workshop on the implementation of the National Digital Communications Policy.

Sundararajan said that the new R&D centres in the country will have an impact of $1 trillion on the economy. The workshop was attended by most of the states and Union territories.

5G in India to roll out soon?

Spectrum auction will be complete by Aug: DoT

WASHINGTON: Apple announced said it will build a $1 billion campus in Texas as part of a nationwide expansion. The facility will be 10 miles from the tech giant’s existing facility in Austin and will initially accommodate about 5,000 additional employee-level growth to grow to 15,000. As it stands, 6,200 employees are already based in the Texan capital — the largest cluster outside its headquarters in Cupertino, California. Employees at the new campus will work in fields including engineering, R&D, operations, finance, and customer support, Apple said. Apple is proud to bring new investment, jobs and opportunity to cities across the United States and to significantly deepen our quarter-century partnership with the city and people of Austin,” Apple said.

Why is my UAE visa rejected?

My UAE visa application was rejected. What are the reasons?

Millions come to UAE from around the world every year as it is a touristic destination or to settle in the country as an expat, the UAE government issues visas through embassies or by authorities everywhere in the world. The process for a visit or work visa is stand-alone process that requires you to fill up and submit the necessary documents - scanned copies of your passport, invitation letter from a host, financials, and proofs of having a visa, among others. Please check with your travel agency or company PRO for more details.

While it is a seamless process, there are times when your UAE visa is rejected. Below are the most common reasons:

- **If you held a residence visa previously and left the country without cancelling the UAE visa.** To get an approval, the PRO will have to go to the immigration department and clear your previous residency visa.
- **Handwritten passports will auto- matically be rejected by the UAE Immigration.**
- **Visa applicants with previous crimi- nal or other violations are not committed in the UAE.**
- **Foreigners who are in a tourist visa but did not enter the country.** In order to get an approval, the PRO of the tourist visa will have to go to the immigration to clear the previous visa.
- **Applicants who applied for employ- ment visa via a company (prospective employer), but did not enter or go to the UAE immigration and clear the previous employment visa.**
- **Visa application with type errors of name, passport number and profes- sion code will see a delay in getting approved.**

For more details, please contact the passport office to clarify any further.

Deccan Healthcare IPO opens on Dec 18

India Post enters e-commerce space

Deccan Healthcare Care has launched a new business of developing, manufacturing and marketing of wellness, health care products including nutritional, cosmetic and ayurveda products, it will be open on December 18.

India Post has announced full-fledged entry into e-commerce business for online sale of parcel business for end customers. It has started an e-commerce operations at two locations. "We have simplified decision-making process at Department of Posts (DoP) by setting up a separate e-commerce department. It will make quick decision on local rates and related provisions. India Post will leverage its vast network for doorstep delivery of products," a senior official said.

India is open for competition in delivery of all e-commerce packages, it will pick up products from the nearest post office for doorstep delivery to customers, the minister said.

Emirates takes delivery of its last Boeing 777 aircraft

Joseph Tănăsău

EMIRATES has taken delivery of the final Boeing 777-300ER aircraft on its order books with the AIP-89 being the 100th Boeing 777 aircraft to be delivered to the airline.

Emirates is the world's largest operator of Boeing 777 aircraft with 238 aircraft in its fleet. Seven of the aircraft in the first wave in the fly by the two next generation models - the Boeing 777-8X and -777X.

Emirates welcomed the first Boeing 777-300ER aircraft (A6-ETN) into its fleet on February 22, 2023.

Emirates has operated one out of every five Boeing 777-300ER aircraft produced to-date and now has the largest 777-family fleet in the global.

Colosseum

This architectural marvel bears numerous parallels to the skills of Roman emperors, who were renowned for their ability to architect an indoor arena, which was on display, internationally renowned interior. The Colosseum has been a popular tourist destination for centuries, with travel guidebook websites, such as the Colosseum and the Vatican, offering tips on how to plan a visit to theColosseum.

The Colosseum is a museum in Rome, founded by the Roman Empire, and is the largest amphitheater ever built. The Colosseum was also known as the Flavian Amphitheater, and was completed in 80 AD.

The Colosseum was originally used as a venue for gladiatorial contests and other public spectacles, such as animal hunts and executions. However, it later became a popular tourist attraction, and today it is a major tourist attraction in Rome.

The Colosseum is a must-see destination for anyone visiting Rome, and is a testament to the skill and craftsmanship of the Roman Empire.

Visiting the Colosseum

To visit the Colosseum, you can purchase a ticket online or at the entrance. Tickets are available at the entrance, or you can purchase them in advance online through a variety of websites.

Once you have purchased your ticket, you will have access to the Colosseum. You can explore the Colosseum at your own pace, and there are many guided tours available to help you make the most of your visit.

The Colosseum is a must-see destination for anyone visiting Rome, and is a testament to the skill and craftsmanship of the Roman Empire.
