NEW DELHI: The central government has detected Rs 20,000 crore worth GST evasion so far this fiscal and will take more steps to check frauds and increase compliance.

Central Board of Indi- rect Taxes and Customs (CBIC) member investigation and analysis wing said that the department would soon file a charge sheet against the representatives of the real estate sector for irregularities in tax collection and evasion that would cause loss of revenues to the government.

CBIC, chaired by Finance Minister Anurag Jitley and comprising state counterparts, has decided to take strong measures against tax evaders in the construction sector and affordable housing.

ECCI files FIR against fake news on NRI voting

NEW DELHI: The Delhi Police has registered a case after the Election Commis- sion of India (ECI) said it is tracking down people allegedly spreading fake news that it said was being circulated on WhatsApp.

“Fake news contains a lie and is based on fictitious and fabricated information of such fake news is causing severe confusion to the public thereby creating public panic and mis- lead the public,” the complaint said.

The charges have been filed under sections 502 (marking, publishing or circulating any statement, rumor, report, etc., with an intention to cause insti- tution of public mischief) and 47 (using a false message or any other content on the Internet, with the intention of causing harm or damage) of the Information Technology Act, 2000 (IT Act), respectively.

The complaint states: “ECCI has already received several complaints that some fake news is being circulated on the Internet, which is misleading the public and creating panic. ECCI has decided to track down all such fake news and take appropriate action.”

In a tragic turn of events, a student from India died at a campus in Sharjah, the capital of the UAE. Indian student died in pool

NEW YORK: In a tragic turn of events, a student from India died at a campus in the UAE. The incident took place on the night of May 22. The student was a resident of the university’s residence hall.

The incident occurred in the pool of the university residence hall where the student was staying. The student was pronounced deceased after being taken to hospital.

The university has confirmed that the student was a resident of the university’s residence hall and had been participating in a weekly swimming class. The student was pronounced deceased on arrival at the hospital.

The university has expressed its condolences to the family of the deceased student and has launched an internal investigation into the incident.

Simajhata Express suspended

SOLAN: A train from Srinagar to Lahore was suspended on the Indian side after a suicide bomber rammed a car into the train.

The train was scheduled to depart from Srinagar at 7.40 a.m. but was later suspended after a bomb went off near the railway station.

The train was carrying a large number of JeM (Jamaat al-Dawa) members and groups of Indians who were being trained for suicide attacks.

The train service was started on July 1, 2017, to boost pilgrimage tourism to the two countries.

Many passengers had boarded the train from Delhi, which was scheduled to depart on Monday morning. It was later suspended after a bomb went off near the railway station.

The train was carrying a large number of JeM (Jamaat al-Dawa) members and groups of Indians who were being trained for suicide attacks.

The train service was started on July 1, 2017, to boost pilgrimage tourism to the two countries.

DUBAI: Many travellers fly- ing to Pakistan and India have been advised to continue moni- toring the status of their flights in view of the eur- epeek between the two countries.

Many flights to all Pakistani destinations from Dubai were cancelled on Monday leaving scores of passengers stranded at terminals. Some flights to India have been affected as well, including those oper- ated by SpiceJet, IndiGo and AirAsia.

The operation of flights from Statin airport re- sumed on Thursday morning, after three remained suspended for over four hours on Wednesday.

I-Card flights to Tamil-land’s and Thursday’s flights to a number of destinations, including Srinagar, Mal- tum, Sialkot and Karachi in Pakistan. Emiratis also cancelled flights to and from cities that have been suspended between Delhi International.

“Due to the closure of Pakistan and Afghanistan airspace to flights from Dubai and Pakistan and Afghanistan have been cancelled,” said an official.

India Airline Flight to Islamabad, according to Skyban- ker’s flight tracker. Passen- gers were asked to contact their travel agents to get alternative arrangements.

In Riyadh, Saudi Arabian Airlines (Saudia) suspended all flights to Pakistani destinations in response to increased military tensions between India and its neighbor Kashmir.

It is a standard proce- dure that we take under such circumstances,” said Saudia’s official.

The airline has not released any statement, rumour or any other statement.

Curb fake news

Fake news is creating havoc nowadays. For an aver-
ge Chinese, the virtual network makes it easy to propag-
fake from the real – that’s the kind of dubious respec-
tly fake news has earned. While writing this,
The Delhi Police have filed an FIR on the complaint of the Election Commission of Indi-
shy, create public nuisance and mischief,” the complaint said. The charges have been filed under IPC sections 505 (Statements likely to cause/rssing fake news that can mislead the public, thereby creating public nuisance and mischief) as well.

“This fake news contains a logo of the ECI. The publication of such false information by the public is likely to cause public nuisance and mischief,” the complaint said. The charges have been filed under IPC sections 505 (Statements likely to cause unrest) and 506 (Assault or打击)

EMIGRATION

New Jersey: There is a 18-year-old Kim Kumari of New Jersey who

Aruna Mittal: The Indian-American woman was perhaps the most impressive candidate of the American Indian community to consider her the community’s best bet for another run. If her performance in the last election is any indication, she has the potential to become the American Indian community’s first female member of Congress.

Raj Goyle, co-founder of RJG Law, said the American Indian state legislator, who also campaigns for her performance in the last election, was a shining example of how the American Indian community can benefit from a candidate with a strong track record in representing their interests.

Aruna Mittal is bright. We are excited to have her at the helm of the American Indian community, she added.

The Hyderabad-born woman is a lawyer who has served in Montgomery County as a public defender for more than two years and is currently a judge in the county’s criminal court. Her domestic violence court has been highly regarded for its innovative approaches and successful outcomes.

The Hispanic-American woman has worked for the Department of Homeland Security for over five years, handling cases related to the implementation of immigration law. She has been recognized for her commitment to ensuring that the rights of immigrants are upheld.

The USA is age eight and a civil engineer by training, having served on the faculty of the University of Alabama. She has been described as a public servant running for the local, city, county, state and national levels.

She has been involved in various community service projects, including volunteering at local hospitals and providing legal aid to those in need.

The Bill Gates Foundation is still a significant force in the country, having made significant contributions to education, health, and technology.

Facebook connections are not real but virtual, but humans often fake their connections to include their friends and relations.

Social media users are busy connecting, transacting and influencing each other by faking their roles and the spread of false information. Then there are people who believe in this kind of fake news and further circulate it to the unsuspecting public.

5. Copy of NEET PG 2019 Mark sheet
6. Online Application form

The above documents will have to be submitted online at cetcell.mahacet.org. If selected, candidates will have to appear for Medical College. According to the study published in The Lancet Oncology, which was recently conducted in Australia, showed that cervical cancer could be eliminated as a global public health problem globally by 2020 using a broad-spectrum HPV vaccine. These vaccines are already available, and vaccination programmes are being rolled out in many countries. However, the study also found that cervical cancer could be eliminated by 2020 only if all women aged 15-49 years were vaccinated. This is a significant finding given that cervical cancer is the most common cancer in women, and there are currently more than 500,000 new cases diagnosed each year worldwide.

The study, led by researchers at the Cancer Council New South Wales in Australia, showed that cervical cancer could be potentially eliminated as a major health public problem in 149 out of 181 countries by 2020. Without expanding current prevention programmes, however, the study predicts that 44.4 million cervical cancer cases would be diagnosed over the next 50 years – rising from 600,000 in 2020 to 1.3 million in 2050 due to population growth and aging.

Despite the enormity of the problem, the findings suggest that global elimination is within reach with tools that are already available, providing both high coverage of HPV vaccination and cervical screening can be achieved.

More than two-thirds of cases presented to WHO were in low- and middle-income countries. This highlights the need for increased investment in cervical cancer prevention and control.

The end of the century in all individual countries in Africa (e.g., Kenya, Tanzania, and Nigeria) and a higher-end estimate, said Karen Gannell from the Cancer Council New South Wales.

In 2018, the Indian Navy Invited applications from Eligible candidates for the recruitment of Machinist (SKT) and Welder (G & E) for Indian Navy's own Rail Coach Factory Recruitment 2019. These include vaccination against HPV, screening, and cervical cancer: early detection and prompt treatment are considered a key component of the Global Strategy for Cancer Control.

A draft global strategy to accelerate cervical cancer elimination, with targets and indicators for the period 2020-2030, will be considered at the World Health Assembly in 2020. Dr. John Schiller, Chief of the National Cancer Institute's section on HPV and vaccines, said the future of cervical cancer prevention and control is now in the hands of countries and global stakeholders.

The variability in cervical cancer rates globally is due to various factors, including access to screening and treatment services. The variability in cervical cancer rates globally is due to various factors, including access to screening and treatment services.

In the past 70 years, the use of antibiotics in human and veterinary medicine has steadily increased, leading to a dramatic rise in resis- tant microorganisms,” said Dr. John Schiller from the National Cancer Institute. “We therefore estimate the mechanisms responsible for resistance development.”

By 2020, this will have to be a major focus of global health initiatives. The study also found that if all women aged 15-49 years were vaccinated, cervical cancer cases could be eliminated globally by 2020 using a broad-spectrum HPV vaccine.

The study also found that cervical cancer interventions in the world’s least developed countries could substantially speed up elimination. These include vaccination against HPV, screening, and cervical cancer: early detection and prompt treatment are considered a key component of the Global Strategy for Cancer Control.

A draft global strategy to accelerate cervical cancer elimination, with targets and indicators for the period 2020-2030, will be considered at the World Health Assembly in 2020. Routes aligned for UAE railnet

Dubai: Routes now aligned for UAE's rail network that will link cities, ports, Emirati Rail says. The head of Emirati Rail said that the rail network will move "very fast forward" with routes now aligned and the design of the project completed. The developer and operator of the railway declined to elaborate on when the project will go online, saying that the second phase was put on hold in 2018 for further studies. Aslam said that the Funding is subject to VAT and any remaining costs must be cancelled. The project is designed and the design of the project completed. The developer and operator of the railway declined to elaborate on when the project will go online, saying that the second phase was put on hold in 2018 for further studies. Aslam said that the project will be inclined to invest $1.5 billion in India's retail market, which is already a major market for foreign investors. The Indian government has been welcoming new investments, particularly in sectors like e-commerce and retail, to boost the country's growth. The fast growth of Indian e-commerce has made it a major destination for foreign investors, with many companies setting up operations in India to tap into the growing demand for online shopping. In recent years, the Indian government has been taking steps to strengthen its e-commerce sector, including through regulatory changes and tax reforms. As a result, many foreign investors have been drawn to India, with the retail market being a key area of interest. However, the Indian market is highly competitive, with local players like Amazon, Flipkart, and Reliance Retail already established and strong. As a result, foreign investors will need to work hard to establish themselves in the market and carve out a niche for themselves. Nevertheless, the potential for growth in India's e-commerce market is enormous, and foreign investors who are able to navigate the challenges and succeed in this market will be well-rewarded. Krishna Prasad, a senior advisor at a leading international investment firm, said: "India's e-commerce market is one of the largest in the world, and foreign investors who are able to establish a strong presence in this market will be well-rewarded. The potential for growth is enormous, and the Indian government is taking steps to strengthen the sector, including through regulatory changes and tax reforms. As a result, foreign investors are keen to establish a presence in India, and there is significant interest in the market from around the world." In conclusion, the Indian e-commerce market is one of the largest in the world, and foreign investors who are able to establish a strong presence in this market will be well-rewarded. The potential for growth is enormous, and the Indian government is taking steps to strengthen the sector, including through regulatory changes and tax reforms. As a result, foreign investors are keen to establish a presence in India, and there is significant interest in the market from around the world.
ICICI Lombard ties up with AnyTimeLoan.in

ICICI Lombard, a private general insurer, has entered into a partnership with AnyTimeLoan.in (ATL), a peer-to-peer lending platform, to provide insurance to its customers in the case of delinquencies, critical illness, or disability. The partnership is expected to reduce the risk exposure of borrowers arising from credit risk and improve the insurance cover for the platform's customers.

Sanjeev Mantri, Executive Director and Chief Executive Officer of ICICI Lombard, said, “We are delighted to partner with AnyTimeLoan.in, as we believe this partnership will provide their customers with our diverse range of non-life insurance solutions and products.

AnyTimeLoan.in is a fintech lending platform, in (ATL), a peer-to-peer lending platform, in India. This is the first time a leading insurer is partnering with a fintech platform and thus helps them in digitally assuring borrowers and facilitating loans with average disbursal time of 4 minutes.

On the partnership, Kirthi Kumar Jain, Founder & CEO, AnyTimeLoan.in said, “Delinquencies at AnyTimeLoan.in have been less than 0.7%, but there are certain external and unforeseen events such as accident, loss of job due to winding up of operations, etc. which we intend to circumvent or insulate our investors with this policy underwritten by ICICI Lombard.”

AnyTimeLoan.in facilitates loans (across India) as small as Rs 1000 to Rs 10 lakh for a minimum period of 1 year to a maximum of 3 years. The insurance cover will begin immediately after the loan disbursement and will stay on a complimentary basis, as ATL will absorb this cost on behalf of the borrowers.

Axis Bank plans organisational recast

Axis Bank plans to restructure its corporate entities to meet next week to discuss the proposed governance changes, restructure of the executive team, and one in a joint venture with AnyTimeLoan.in. The bank plans to make some key announcements in the coming weeks to discuss the design and implementation of the new company structure.

“The bank will become, in effect, a full subsidiary of Axis Bank and will take over the responsibility of retail and wholesale banking, and ATMs,” said a senior executive at the bank.

Insurers to meet next week to discuss the proposed changes to the company structure. The insurance companies are expected to discuss the proposed changes to the company structure.

Bharti Airtel partners with Nokia

Bharti Airtel, the second largest mobile operator in India, has signed a multi-year agreement with Nokia to deploy its 5G solutions in the country. The deal will enable Bharti Airtel to roll out 5G services in early 2020, allowing the company to stay ahead of its competitors in the 5G race.

This is a little known consortium of the largest companies in the oil and gas sector, which can help Bharti Airtel to meet next week to discuss the proposed changes to the company structure. The insurance companies are expected to discuss the proposed changes to the company structure.

Syndicate Bank to launch ESPTs at discounted rates

The Syndicate Bank has announced the launch of Employee Share Purchase Trusts (ESPTs) on a discounted basis. The bank plans to launch at least 20 ESPTs in the coming months.

The bank also has the option to launch other schemes in the future, such as Employee Stock Option Plans (ESOPs) or Employee Stock Purchase Plans (ESPPs), to help employees accumulate savings in the long term.

India's first REIT to be launched in March

India's first Real Estate Investment Trust (REIT) is expected to be launched in March. The trust will be valued at around $1.5 billion and will invest in commercial real estate assets.

The REIT will be listed on the NSE and BSE and will be managed by a dedicated real estate asset management company. The trust will have a minimum unit size of Rs 10,000 and will be open to both retail and institutional investors.

iiBank launches ‘Bo@Home’

IndusInd Bank has launched ‘Bo@Home’ service for its customers. The service allows customers to access their bank accounts and make transactions from the comfort of their homes.

The service is available on both mobile and desktop platforms and is accessible to all customers without any additional charges. Customers can use their mobile number or debit card to access the service.

The service is currently available in six cities in India, including Delhi, Mumbai, Chennai, Kolkata, Bengaluru, and Pune. The bank plans to expand its reach to other cities in the coming months.

The service offers a range of features, including account statements, balance inquiry, and transaction history. Customers can also make payments for utilities, insurance, and other services through the service.

The service is available 24/7, and customers can use it to access their accounts at any time, from anywhere in the world.

The service is expected to be a major draw for customers who prefer to conduct their banking transactions from the comfort of their homes, and it is expected to increase customer satisfaction and loyalty for IndusInd Bank.

The service is currently available on the bank's mobile app and website, and customers can register for the service by following the link provided on the bank's website.
Kerala Chief Minister Pinarayi Vijayan inaugurated a Rs 25-cr project for the restoration of the heritage of the iconic Mascot Hotel coinciding with the celebrations of 100 years of the hospitality pioneer. The comprehensive project, drawn up by KTDC, was unveiled close on the heels of Mascot Hotel bagging the five-star status.

Vijayan also unveiled the plans to mark the historic occasion and opened a month-long exhibition that vividly depicts the 100 years of glorious service of the trail blazer in hospitality sector in the state.

In his presidential address, Tourism Minister Sarumudhan said that Mascot has got the unique distinction of being the maiden five-star hotel in the public sector. Recalling the history and fame of the institution, he noted: “In the hotel map published by the Bombay-based Indian Hotel Company in 1937, Mascot was one among the four hotels listed from South India. In 1965, it came under KTDC.”

The minister underscored the need to adopt quality service and new marketing strategies in order to compete with private players in the hospitality industry.

K Muraleedharan MLA, Member, Board of Directors, KTDC, was present at the function, where M Vijayakumar, Chairman, KTDC, delivered a felicitation speech. Vijayakumar said “Mascot Hotel is a priceless treasure of Kerala. It is the Jodar in KTDC’s crown.”

The restoration project will be carried out without in any way harming its distinguishing architectural features.” P Ilaa Kruna IAS, Director, Kerala Tourism and Krishekkummar, Member, Board of Directors, KTDC, were also present.

The works to be taken up include strengthening of the building, rooms, passages, beautification of the premises and improving the amenities. They will be completed in two phases within a year. The government has already accorded administrative sanction for Rs 25 crore for the project.
