**UAE five-year visa at Dh650, 10-year visa at Dh1,150**

**Dubai**: Long-term UAE residence visas, which were rolled out earlier this year, can now be obtained for as low as Dh1,150. According to eligibility criteria, Indian professionals, earlier investors in public investments, foreign professors and researchers in various domains qualify for the 10-year visas.

Investors and professionals fulfilling the criteria are allowed to apply in Dubai only by submitting a document, required to allow them to apply for application and Dh1,000 for all investments on part of an expat or his family, including services charges.

**Muscat**: Expats arriving in Oman to start work or moving employment contracts are required to obtain a Work Permit Certificate (NOC), according to the requirements under Oman law to wait until the submission of a visa or termination, to request the document, which allows expatriates to move from one company to another in the Sultanate. The only requirement for expatriate workers is to obtain NOC (an agreement between all parties), according to a Ministry of Interior statement. In fact, the document, once submitted to all authorities, does not carry any date.

If expatriate workers wish to switch jobs, in Oman require the new company to confirm with their current sponsor (employer) that they have no objection to the move. Should an expatriate employee fail to obtain the NOC, he or she has to leave Oman and cannot return to the Sultanate, according to the Ministry of Interior.

There is no requirement for the employment contract to be ended or is being held by the job before the request of the contract, according to the principles of labor and work for other sponsors, or the company. The NOC can also be requested and obtained at any time during the expatriate’s work commitment, according to a Oman Police and the ministry statement. All processes are in agreement. In fact, the document, once submitted to all authorities, does not carry any date.

Expatriates who want to move from one place to another in the Sultanate. The only requirement for expatriate workers is to obtain NOC, according to a Ministry of Interior statement. In fact, the document, once submitted to all authorities, does not carry any date.

Airfares soar as Eid draws closer

(Courts. (Contd. from page 1) page 2)

New York: The massive election victory of Prime Minister Modi and his BJP is a reflection of the emer-
gence of a new India. It would help boost the ties between India and the US in the areas of trade and bi-partisan organiza-
tions.

Modi’s first term in PM had set a high bar of leader-
ship for India. The American India Public Affairs Committee (USINPAC) President Jagdish Sewhani said, “By re-
eating the BJP and the NDA, India clearly shows it has endorsed the good governance agenda of the NDA. Its development policy based on Sushka Swastika Vik-
ak and his strong national security policy which has achieved a balance between security and development, he said in a statement. He said the re-election of the Indian Prime Minister is a mandate on a new chapter in the India-US relations. India has become a bright spot of global econom-

y and a world power that could no longer be ignored, he said. “In the next five years, India would fast-track its development,” he said. Under Modi, India’s exports would soon be among the world’s most powerful coun-
tries and top three global economies, USINPAC, a bi-

partisan organisation that is the voice of over 3 million American-Indians, said in a statement. “The Indian government has also decided to reduce the application cost for the issuance of the visa. Shringla said it is the right time to do so as it will make a difference. In some cases, seats are available, while those who travel to Georgia via Batumi airport can score tickets for June 2 and June 3 for the return journeys. The authorities have been very generous and they will make sure that the US government, which has expressed its readiness to work in line with the best interests of the people of both the countries and the region. Nepal’s former Prime Minister Pushpa Kamal Dahal Prachanda also called up Modi to fon or credibility” to the waiver.

The US in Jan had im-
posed sanctions on Iran’s crude oil export to zero, the US ended on May 2. Iran insisted the sanctions.

DU admissions 2019: Application forms to release after final decision on entrance exam

NEW DELHI: The Delhi University (DU) has once again postponed the dates for the release of application forms for admission to undergraduate courses at the varsity. Earlier, the exams were scheduled to begin from June 10, but leading to several changes in the pattern of the exams, they have been delayed. The application forms will be released online on the university's official website, du.ac.in.

This year, despite lockdown, hours have been spent convincing the students not to delay, it is time to study. Two months to prepare for the exam. For this, students are required to possess a letter to support the entrance to the UK as a short-term student. There are, however, a few restrictions under the short-term visa route. One cannot take employment in the UK during the study time – short-term visa and full-time employment is not applicable when the course duration is less than six months. Therefore, the application must be made for the Tier 4 visa. The short-term study visa route allows students to study to the UK for a short course of study. It is issued for a maximum of six months. For Tier 4 visa, the education provider must be a licensed body that has been approved by UKBA to offer courses to international students. A Tier 4 visa application form must be made online for the student to study in the UK. The visa is issued for a particular course that is not more than three years. To apply for a Tier 4 Visa, Indian students need to have an offer letter from a university or college that has been approved by the UK government as a licensed body to offer courses abroad. How to apply for the visa – short-term visa and Tier 4 visa. While the Tier 4 visa is applied for by students entering the country for an educational programme of less than six months’ duration, the Tier 4 visa is applied for by students entering the UK for more than six months.

For Tier 4 visa, the application process is to be completed online. The form can be filled after the announcement of admissions. The application form consists of two parts – testing and some questions are arising. There are many new features in the offering. The standing committee has also instructed all the universities to set up e-payment gateways for students. The application fee for admission is being released online for the first time.

Ktka COMEDK result 2019 declared

The result for the Consortium of Medi- cal, Engineering and Dental Colleges of Kar- nataka’s (COMEDK) un- dergraduate entrance test for engineering courses (UGET 2019) has been declared on May 15 (Saturday). Students can check their result at the official website, comedk. org and uniqague.com.

Based on the scores and COMEDK rank card, students will have to attend centralised counselling in Bangalore-based in which they will get seats in different colleges based on their interest and merit. Around 1,25 lakhs candidates applied for the examination, as per the COMEDK officials.

Step 2: On the homepage, click on the result link.

Step 3: A pop-up notification will appear

Step 4: Results will only be available

Candidates will have to register for online counselling which is available in two versions. Can- didates who opt for only Uni-GAUGE will have to pay Rs 1600, those who opt for only COMEDK will have to pay Rs 1500 and those who opt for both will have to pay Rs 2400. These candidates will only will take admission through online centralised counselling at Bangalore.

Supporting institution

New Eng UC was an- nounced as the supporting institution for the exam.

Result of the various institutions in Karnataka and several other states will be in the next few days.

KSRLT, DSU to support about 2,000 projects

The Karnataka government has announced the launch of a project to support about 2,000 projects.

The Karnataka State Board of Secondary and Higher Second- ary Education and Karnataka University have announced the launch of a project to support about 2,000 projects.

The project, named “Supporting Innovation in KSC and DSU”, is being implemented in collaboration with the Department of Science and Technology (DST), the Indian Institute of Science (IISc) and the Indian National Science Academy (INSA).

The project aims to support innovative research and development projects in the fields of science and technology.

Eligibility criteria

Projects must be in the fields of science and technology and must be led by Indian researchers.

Funding

Projects will receive funding based on their merit and potential impact.

Conclusion

The project is expected to contribute significantly to India’s scientific and technological advancement.

Graphical User Interface

The project will be implemented using a user-friendly graphical user interface (GUI) developed by the Indian Institute of Technology (IIT) Bombay.

Timeline

The project is expected to be completed within a period of two years.

Future plans

The project will be scaled up and expanded to cover more projects in the future.

Edification

The project aims to promote scientific and technological innovation in India.

Is maternity leave paid during probation?

I'm only five months into my six-month probation in my new job and it is mentioned in my contract that I'm entitled to maternity leave after one year of serving the company. Unfortunately, my employer terminated my contract during probation and is trying to prevent me from taking maternity leave. Does this mean that once I leave the company, I'm entitled to receive half the pay that I earned while serving?

The legal basis for maternity leave during probation is not entirely clear as it may vary by country. However, in many jurisdictions, employees are entitled to take maternity leave regardless of their probation status. The employer is required to comply with the country's labor laws and provide the necessary paid leave.

In Dubai, the Leave Department of the Department of Human Resources and Emiratisation is responsible for enforcing labor laws and agreements. They ensure that employers provide the required maternity leave, and any violation of the law can result in penalties.

Additionally, the International Labour Organization (ILO) has guidelines on maternity protection that most countries follow. These guidelines state that employees are entitled to a minimum of 14 weeks of paid maternity leave after at least 12 months of continuous service.

To determine your specific rights in Dubai, it is recommended to consult with a labor law expert or contact the leave department to understand the applicable regulations in your case.
Lenovo expects around 20pc revenue growth in India

- Lenovo is eligible for Section 87A rebate under new income tax rule for senior citizens; all you need to know

**New income tax rule for senior citizens:**

- The Finance Ministry is planning to launch an additional fund of fund (ETF) consisting of Bharat-22 and CPSE ETF in the domestic market.
- We expect balance sheet of PSU banks to strengthen if new ETFs comprising stocks of public sector companies comes in market, he added.
- Currently, there are two state-owned financial institutions – General Insurance Corporation of India Limited and ICICI Lombard General Insurance Co Ltd — and third private sector banks which launch CPSE ETF in overseas market.

Lenovo is a leading global technology company that provides a wide range of products and services that make the future possible. With a global workforce of more than 50,000 people, Lenovo designs, manufactures, and sells personal computers, tablet computers, servers, storage devices, and network devices. The company also provides cloud computing and other technology services. Lenovo is headquartered in Beijing, China, and has operations in more than 160 countries worldwide.

In the current fiscal year, Lenovo's headquarters in China is facing challenges due to the ongoing pandemic and economic slowdown. The company is focusing on building its business in emerging markets, particularly in Asia Pacific, where it has a strong presence.

Chennai Airport to fix new baggage screening system

The In-Line Baggage Screening System (ILSS) is a fully automated technology and will come up at Terminal 2, International terminal will take three more months to come up. According to airport Director G. Chandrashekar, the new system will facilitate the installation work in a seamless manner, Chennai airport will be the first to use stand-alone X-ray machines for international operations and flight departures.

"We will be having five X-ray machines to clear the rush," he said. To a query on whether AIIMS level medical facility for domestic terminal, the director said that "It will definitely be there in four months. It will be a temporary arrangement at the existing medical facility till the commissioning of the new ILSS system and is expected to avoid any calamity for a maximum of three months," he said.

The ILSS system, once implemented, will provide additional relief to fliers, who will not have the trouble of standing in long queues near the registered baggage counter. Once the system is functional, passengers will deposit their luggage at the check-in points after getting it scanned by stand-alone X-ray machines. Further, to assist the elderly passengers and those with additional manpower have also been provided, who will keep watching the baggage on machines for handing busy luggages. An airport spokes- person-Johnston, said that the airport is looking to cooperate for the earlier commissioning of ILSS. In case of any inconvenience, passengers can contact – 8100000000 (internal) or 04422563001/81, 8066280077.
